

How to correct already approved QC deals?

Go to <https://merchant.dealsinvicta.com/>- Product management- Product list

The screenshot displays the 'Product List' interface on the merchant.dealsinvicta.com website. The navigation bar includes 'Dashboard', 'Product Management', 'Orders', 'Commission', 'Payments', 'Packages', and 'My Referrals'. A dropdown menu is open over 'Product List', showing 'Add Product', 'Product List', and 'Product Upload History'. The main content area features a search and filter section with a status dropdown, date range, product name input, and a 'Filter By Stock' dropdown. Below this is a table with the following data:

The Product list contains - all deals that are already approved by admin. The amount of each approved deal can be increase or decrease by pressing + / – sign.

When increasing the quantity of the product instead of entering the whole amount, simply press + and then write down the number that contains the desired rise.

(for example your deal is 6 PC ; you want to make it 8 PC; so you press: + 2). It works the other way round.

The Action button provides you with the opportunity to change all deal characteristic except VAT/ TAX; category /type of the good/ service, product number and key features.
